

## CONTENTS

CHAPTER NO.	TITLE	PAGE NO.
<b>I</b>	<b>Introduction</b>	
	1.1. Importance of Water	1
	1.2. Uses of Water	3
	1.3. Drinking Water Quality	4
	1.4. Water Pollution	4
	1.5. Heavy Metal Pollution	7
	1.6. Heavy Metals causing Pollution	11
	1.7. Physico-Chemical Treatment Techniques	20
	1.8. Adsorption-A Promising Method	25
	1.9. Review of Literature	27
<b>II</b>	<b>Aim and Scope</b>	36
<b>III</b>	<b>Experimental Section</b>	
	3.1. Adsorbent Materials	38
	3.2. Characterization of Treated Adsorbents	42
	3.3. Characterization of Surface Functional Groups	46
	3.4. Preparation of Adsorbate Solutions	50
	3.5. Batch Mode Adsorption Studies	51
	3.6. Metal ions Estimation	52
	3.7. Effect of Variable parameters	53
	3.8. Adsorption Isotherm & Kinetics	58
	3.9. Activation parameters	59

<b>CHAPTER NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
<b>IV</b>	<b>Adsorption studies of Ni(II) onto Treated <i>Terminalia catappa</i> nut shell (TTCNS) &amp; Treated <i>Azadirachta indica</i> nut shell (TAINS)</b>	
	4.1. BET and BJH Analysis	60
	4.2. SEM and EDAX Analysis	65
	4.3. FT-IR Spectral Analysis	70
	4.4. Effect of Particle size	73
	4.5. Effect of Contact time and Initial concentration	77
	4.6. Effect of Dosage	80
	4.7. Effect of pH	83
	4.8. Effect of Cations	86
	4.9. Effect of Anions	86
	4.10. Effect of Co-ions	89
	4.11. Effect of Temperature	90
	4.12. Desorption	93
	4.13. Regeneration of TTCNS and TAINS	95
	4.14. Adsorption Isotherms	96
	4.15. Adsorption Kinetics	108
	4.16. Adsorption Dynamics	119
	4.17. Effect of TTCNS and TAINS dosage on industrial effluent containing nickel	121
<b>V</b>	<b>Adsorption Studies of Co(II) onto TTCNS and TAINS</b>	
	5.1. SEM and EDAX Analysis	124
	5.2. FT-IR Spectral Analysis	127

<b>CHAPTER NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
	5.3. Effect of Particle size	129
	5.4. Effect of Contact time and initial Concentration	132
	5.5. Effect of Dosage	135
	5.6. Effect of pH	136
	5.7. Effect of Cations	138
	5.8. Effect of Anions	138
	5.9. Effect of Co-ions	139
	5.10. Effect of Temperature	140
	5.11. Desorption	142
	5.12. Regeneration of TTCNS and TAINS	143
	5.13. Adsorption Isotherms	144
	5.14. Adsorption Kinetics	152
	5.15. Adsorption Dynamics	160
<b>VI</b>	<b>Adsorption Studies of Cr(VI) onto TTCNS and TAINS</b>	
	6.1. SEM and EDAX Analysis	162
	6.2. FT-IR Spectral Analysis	167
	6.3. Effect of Particle Size	169
	6.4. Effect of Contact time and initial Concentration	171
	6.5. Effect of Dosage	174
	6.6. Effect of pH	176
	6.7. Effect of Cations	178
	6.8. Effect of Anions	178
	6.9. Effect of Co-ions	179

<b>CHAPTER NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
	6.10. Effect of Temperature	180
	6.11. Desorption	183
	6.12. Adsorption Isotherms	183
	6.13. Adsorption Kinetics	189
	6.14. Adsorption Dynamics	196
	6.15. Effect of TTCNS and TAINS dosage on Industrial Effluent containing chromium	198
<b>VII</b>	<b>Adsorption Studies of Ni(II),Co(II)and Cr(VI) onto MTCNS, MAINS and NAINSC</b>	
	7.1 FT-IR Spectral Analysis	200
	7.2 Atomic Force Microscopic Analysis	205
	7.3 Effect of MTCNS and MAINS onto Ni(II),Co(II) and Cr(VI)	206
	7.4 Effect of MTCNS and MAINS dosage on industrial effluents	209
	7.5 Effect of NAINSC dosage on Ni(II) and Cr(VI)	210
	7.6 Effect of NAINSC dosage on industrial effluents	212
<b>VIII</b>	<b>Sorptive ability of adsorbents and Preferential order of adsorption of metal ions</b>	
	8.1 Comparison of Sorption Ability of Treated adsorbents	214
	8.2 Comparison of Sorption Ability of Modified adsorbents	215
	8.3 Preferential Order of Adsorption of Metal ions	216
	<b>CONCLUSION</b>	218
	<b>BIBLIOGRAPHY</b>	
	<b>APPENDIX</b>	

## LIST OF TABLES

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
1.1	Significant anthropogenic sources of heavy metal pollution	10
1.2	Permissible limits of various toxic heavy metals	12
3.1	Physicochemical characteristics of adsorbents	49
3.2	Batch mode studies of Ni(II) onto treated adsorbents	55
3.3	Batch mode studies of Co(II) onto treated adsorbents	56
3.4	Batch mode studies of Cr(VI) onto treated adsorbents	56
3.5	Batch mode studies of Ni(II),Co(II) and Cr(VI) onto modified adsorbents	57
3.6	Batch mode studies of Ni(II),Co(II) and Cr(VI) onto Nano composited adsorbent	57
4.1	Effect of Particle size (TTCNS)	75
4.2	Effect of Particle size (TAINS)	76
4.3	Effect of Contact time and Initial concentration (TTCNS)	78
4.4	Effect of Contact time and Initial concentration (TAINS)	79
4.5	Effect of Adsorbent dose (TTCNS)	81
4.6	Effect of Adsorbent dose (TAINS)	82
4.7	Effect of pH (TTCNS)	84
4.8	Effect of pH (TAINS)	85
4.9	Effect of Cations and Anions (TTCNS)	87
4.10	Effect of Cations and Anions (TAINS)	88
4.11	Effect of Temperature (TTCNS)	91
4.12	Effect of temperature (TAINS)	92
4.13	Equilibrium concentrations - Langmuir isotherm	98
4.14	Equilibrium parameter ( $R_L$ )	100

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
4.15	Equilibrium concentrations - Freundlich isotherm	101
4.16	Equilibrium concentrations - Tempkin isotherm	103
4.17	Equilibrium concentrations - DKR isotherm	106
4.18	Isotherm constants Ni(II)	108
4.19	Effect of concentration-Kinetics [Ni(II)- TCNS]	109
4.20	Effect of concentration-Kinetics - [Ni(II)-TAINS]	110
4.21	Pseudo-first-order and pseudo-second-order kinetic constants at different concentrations	114
4.22	Elovich constants at different initial concentrations Ni(II)	116
4.23	Intraparticle diffusion constants at different concentrations Ni(II)	119
4.24	Thermodynamic constants Ni(II)	120
4.25	Effect of TTCNS and TAINS on Industrial effluent	122
5.1	Effect of Particle size (TTCNS)	130
5.2	Effect of Particle size (TAINS)	131
5.3	Effect of Contact time and Initial concentration (TTCNS)	133
5.4	Effect of Contact time and Initial concentration (TAINS)	134
5.5	Effect of Adsorbent dose (TTCNS)	135
5.6	Effect of Adsorbent dose (TAINS)	136
5.7	Effect of pH (TTCNS)	137
5.8	Effect of pH (TAINS)	138
5.9	Effect of Cations and Anions (TTCNS)	139
5.10	Effect of Cations and Anions (TAINS)	139
5.11	Effect of Temperature (TTCNS)	141
5.12	Effect of Temperature (TAINS)	142
5.13	Equilibrium concentrations - Langmuir isotherm Co(II)	145

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
5.14	Equilibrium Parameter ( $R_L$ )	147
5.15	Equilibrium concentrations - Freundlich isotherm	147
5.16	Equilibrium concentrations - Tempkin isotherm	149
5.17	Equilibrium concentrations for DKR isotherm Co(II)	150
5.18	Isotherm constants Co(II)	152
5.19	Effect of concentration-Kinetics [Co(II)-TTCNS]	153
5.20	Effect of concentration-Kinetics [Co(II)-TAINS]	155
5.21	Pseudo-first-order and pseudo-second-order kinetic constants at different concentrations	156
5.22	Elovich constants at different initial concentrations Co(II)	158
5.23	Intraparticle diffusion model constants at different concentrations Co(II)	160
5.24	Thermodynamic constants Co(II)	161
6.1	Effect of Particle size (TTCNS)	169
6.2	Effect of Particle size (TAINS)	170
6.3	Effect of Contact time and Initial concentration (TTCNS)	172
6.4	Effect of Contact time and Initial concentration (TAINS)	173
6.5	Effect of Adsorbent dose (TTCNS)	174
6.6	Effect of Adsorbent dose (TAINS)	175
6.7	Effect of Temperature (TTCNS)	181
6.8	Effect of Temperature (TAINS)	182
6.9	Equilibrium Parameter ( $R_L$ )	185
6.10	Equilibrium concentrations - Freundlich isotherm	185

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
6.11	Equilibrium concentrations - Tempkin isotherm	187
6.12	Equilibrium concentrations - DKR isotherm	188
6.13	Effect of concentration-Kinetics [Cr(VI)TTCNS]	190
6.14	Effect of concentration-Kinetics [Cr(VI)TAINS]	192
6.15	Pseudo-first-order and pseudo-second-order kinetic constants at different concentrations	193
6.16	Elovich constants at different initial concentrations Cr(VI)	195
6.17	Intraparticle diffusion model constants at different concentrations Cr(VI)	196
6.18	Thermodynamic constants Cr(VI)	197
6.19	Effect of TTCNS and TAINS on industrial effluent	199
7.1	Effect of initial concentration [Ni(II),Co(II) onto MTCNS and MAINS	207
7.2	Effect of initial concentration Cr(VI) onto MTCNS and MAINS	208
7.3	Effect of MTCNS and MAINS on industrial effluents containing Nickel and Chromium	210
7.4	Effect of NAINSC dosage on Ni(II) and Cr(VI)	212
7.5	Effect of NAINSC dosage on Industrial effluents	213
8.1	Comparison of isothermal and Thermodynamic constants	215
8.2	Effect of desorbing medium	215

## LIST OF FIGURES

Figure No.	Title	Page No.
3.1	a. <i>Terminalia catappa</i> nut shell (TCNS)	38
	b. <i>Azadirachta indica</i> nut shell (AINS)	38
3.2	a. Treated <i>Terminalia catappa</i> nut shell (TTCNS)	40
	b. Treated <i>Azadirachta indica</i> nut shell (TAINS)	40
3.3	a. Modified <i>Terminalia catappa</i> nut shell (MTCNS)	41
	b. Modified <i>Azadirachta indica</i> nut shell (MAINS)	41
3.4	Nanomodified <i>Azadirachta indica</i> nut shell composite	42
4.1	BET Plot for TTCNS	61
4.2	BET plot for TAINS	62
4.3	BJH plot for TTCNS	63
4.4	BJH plot for TAINS	64
4.5	SEM of TTCNS	66
4.6	SEM of Ni(II) loaded TTCNS	66
4.7	SEM of TAINS	67
4.8	SEM of Ni(II) loaded TAINS	67
4.9	EDAX spectrum of TTCNS	68
4.10	EDAX spectrum of TTCNS loaded with Ni(II)	68
4.11	EDAX spectrum of TAINS	69
4.12	EDAX spectrum of TAINS loaded with Ni(II)	69
4.13	FT-IR spectrum of TTCNS	71
4.14	FT-IR spectrum of TTCNS loaded with Ni(II)	71
4.15	FT-IR spectrum of TAINS	72
4.16	FT-IR spectrum of TAINS loaded with Ni(II)	72
4.17	Microscopic views of TTCNS (0.42mm)	74
4.18	Microscopic views of TAINS (0.18mm)	74

<b>Figure No.</b>	<b>Title</b>	<b>Page No.</b>
4.19	Effect of Particle size (TTCNS)	75
4.20	Effect of Particle size (TAINS)	76
4.21	Effect of Contact time and Initial concentration (TTCNS)	78
4.22	Effect of Contact time and Initial concentration (TAINS)	79
4.23	Effect of Adsorbent dose (TTCNS)	81
4.24	Effect of Adsorbent dose (TAINS)	82
4.25	Effect of pH (TTCNS)	84
4.26	Effect of pH (TAINS)	85
4.27	Effect of Cations and Anions (TTCNS)	87
4.28	Effect of Cations and Anions (TAINS)	88
4.29	Effect of Co-ions (TTCNS)	90
4.30	Effect of Co-ions (TAINS)	90
4.31	Effect of Temperature (TTCNS)	92
4.32	Effect of Temperature (TAINS)	93
4.33	Desorption of Ni(II) [TTCNS]	94
4.34	Desorption of Ni(II) [TAINS]	94
4.35	Regeneration [Ni(II)-TTCNS]	95
