## ACKNOWLEDGEMENT

I am extremely thankful to the almighty for the divine grace and blessings showered upon me. I take immense pleasure in thanking the **Management** of the PSGR Krishnammal College for Women, for providing the generous infrastructural support extended for carrying out the research.

I extend my sincere thanks to our Principal, **Dr. S. Nirmala, MBA, M. Phil, PhD**, PSGR Krishnammal College for Women, for her immense support given to carry out my research programme.

I owe my deep sense of gratitude and sincere thanks to my research supervisor, **Dr. J. Anitha, B. Tech, MBA, PhD., Associate Professor**, Department of Management, PSGR Krishnammal College for Women, for her continuous support and meticulous guidance given at every stage of the research activity, without which this

I record my sincere thanks to **Prof. S. Balasubramanian, Former Director** and **Dr. P. Sadhasivam, Dean, GRG School of Management Studies** for their support. I thank **Dr. P. Santhana Krishnan, Dean-Research, Consultancy and Publications** for the prolific suggestions and substantial guidance throughout the research. My special thanks to **Dr. S. Poornima, MBA, MPhil, PhD, FDP-IIM-A, Head of the Department of Business Administration**, PSGR Krishnammal College for Women, for the enthusiastic and constructive suggestions. I thank the faculty members of PSGR Krishnammal College for Women for their suggestions and encouragement during the review sessions. My hearty thanks to all the respondents for their unconditional co-operation and support.

I would like to dedicate this work to my Parents Mr.K.Purushothaman and Mrs.P.Jamuna, my husband Mr. M. Rajendran and extend my bouquet of thanks to Sangi, Sarada, Supraja, Ramu, my parents-in-law and all my family members and friends for their constant encouragement and fillip given to me for pursuing my research study. I wish to extend a special word of thanks to my sons, Hari and Sriram for extending the technical support and willing co-operation.

**(R.SWARANALATHA)**

	<b>INTRODUCTION</b>	
1.1	Statement of the problem	1
1.2	Rationale for the study	5
1.3	Micro, Small and Medium Enterprises	7
1.4	District Industries Centre	10
1.5	Women Entrepreneurs	11
1.5.1	Development of Women Entrepreneurs	14
1.5.2	Women Entrepreneurship in Global context	18
1.5.3	Women Entrepreneurship in India	21
1.5.4	Motivational and Support factors	25
1.5.5	Barriers to Women Entrepreneurs	26
1.6	Emotional intelligence	29
1.7	Work engagement	36
1.8	Subjective Well-being	38
1.9	Organization of the study	42

<b>Chapter No.</b>	<b>Title</b>	<b>Page No.</b>
<b>II</b>	<b>REVIEW OF LITERATURE</b>	
2.1	Need for Women entrepreneurship	44
	2.1.1 Motivational and Support factors	45
	2.1.2 Barriers for Women entrepreneurship	50
2.2	Emotional intelligence	62
	2.2.1 Components of Emotional intelligence	65
	2.2.2 Impact of Emotional intelligence on other variables	74
	2.2.3 Measurement of Emotional intelligence	79
2.3	Work engagement	81
	2.3.1 Main drivers of Work engagement	82
	2.3.2 Measurement of Work engagement	87
	2.3.3 Utrecht Work Engagement Scale	88
2.4	Subjective Well-being	88
2.5	Theoretical Framework Model for the study	94
2.6	Objectives of the study	95
2.7	Hypothesis to be tested	96
<b>III</b>	<b>RESEARCH METHODOLOGY</b>	
3.1	Area of the study – Coimbatore	98
3.2	Research Design	98
3.3	Instrument development	99
3.4	Instrument Validation	105
	3.4.1 Reliability Analysis	105
	3.4.2 Content validity	108

<b>Chapter No.</b>	<b>Title</b>	<b>Page No.</b>
	3.4.3 Construct Validity	108
	3.4.4 Criterion validity	115
3.5	Sampling and Data collection	116
3.6	Data Analysis	116
	3.6.1 Profiling the Demographics of the respondents	117
	3.6.2 Motivational and Support factors	118
	3.6.3 Barriers for Women Entrepreneurs	118
	3.6.4 Descriptive Statistics	119
	3.6.5 Chi-square analysis	119
	3.6.6 One Way ANOVA	119
	3.6.7 Correlation and Regression	120
	3.6.8 Discriminant Analysis	121
	3.6.9 AMOS- Structural Equation Modelling	121
<b>IV</b>	<b>ANALYSIS AND DISCUSSION</b>	
4.1	Demographic profile of the respondents	125
4.2	Extent of support provided to women entrepreneurs	132
4.3	Barriers faced by women entrepreneurs	135
4.4	Perception of Emotional Intelligence, Work Engagement and Subjective Well-being of women entrepreneurs	139
4.5	Testing the association between age of the respondents and their time spent in business activity	141
4.6	Testing the association between the motivational factor to start a business and the type of business	144
4.7	Testing the association between the size of the business enterprise and involvement of the firm in social activities	146

<b>Chapter No.</b>	<b>Title</b>	<b>Page No.</b>
4.8	Perception towards study variables based on the Demographic and Business related factors	148
4.8.1	Perception of the study variables based on the age	148
4.8.2	Perception of the study variables, based on the Education	153
4.8.3	Perception of the study variables based on the annual family income	159
4.8.4	Perception of the study variables based on the years of business experience	163
4.8.5	Perception of the study variables, based on the time scheduled for business activity	167
4.8.6	Perception of the study variables, based on the nature of the business	171
4.9	Association among the study variables	174
4.10	Impact of Emotional Intelligence on Work Engagement of Women Entrepreneurs	176
4.11	Impact of Emotional Intelligence on Subjective Well-being of Women Entrepreneurs	181
4.12	Identifying characteristics that distinguish highly engaged women entrepreneurs from less engaged women entrepreneurs using Discriminant analysis	184
4.13	Identifying characteristics that distinguish women entrepreneurs with high Subjective Well-being from respondents with low subjective Well-being using Discriminant analysis	188
4.14	Exploring the impact of Emotional Intelligence on Work Engagement and Subjective Well-being of Women entrepreneurs	192
<b>V</b>	<b>FINDINGS AND SUGGESTIONS</b>	
5.1	Summary of Findings	214
5.2	Suggestions	226

<b>Chapter No.</b>	<b>Title</b>	<b>Page No.</b>
<b>VI</b>	<b>CONCLUSION</b>	
	6.1 Implications of the study	231
	6.2 Limitation to the study	232
	6.3 Future research directions	233
	6.4 Conclusion	233
	<b>BIBLIOGRAPHY</b>	
	<b>APPENDICES</b>	
	Annexure A Article on Women Entrepreneurs in Times of India	
	Annexure B Questionnaire used for the research study	
	Annexure C Publications and Conferences attended

## LIST OF TABLES

Table No.	Title	Page No.
1.1	Investment limit for Micro, Small and Medium Scale Enterprises	9
1.2	Status of Women-entrepreneurship across the World	20
1.3	Female and Male entrepreneurs in India-Recent Trends	21
1.4	Sectoral breakdown of Female and Male Entrepreneurs with Workers in 2011	22
1.5	Number of units registered and number of Women Entrepreneurs in various States of India	23
2.1	Summary of studies on Motivational factors for Women Entrepreneurs	48
2.2	Summary of studies on Barriers for Women Entrepreneurs	58
3.1	Cronbach's alpha value of ECI—360 degree, Version 2.0	103
3.2	Reliability analysis- Emotional Intelligence	106
3.3	Reliability analysis- Work Engagement	107
3.4	Reliability analysis- Subjective Well-being	107
3.5	Critical Ratio value for Self-awareness construct	109
3.6	Critical ratio values for Self-Management construct	110
3.7	Critical ratio values for Social-awareness construct	111
3.8	Critical ratio values for Social skills construct	112
3.9	Critical Ratios and P value- Emotional intelligence concept	113
3.10	Construct validity for Work engagement	114
3.11	Construct validity for Subjective well-being	114
3.12	Impact of Emotional intelligence on Work engagement	115
3.13	Impact of Emotional intelligence on Subjective well-being	116
4.1	Demographic profile of the respondent	127
4.2	Motivational factor to start business	132

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
4.3	Extent of support provided to Women Entrepreneurs	134
4.4	Barriers faced by Women Entrepreneurs	136
4.5	Over all perception of Emotional Intelligence, Work Engagement and Subjective Well-being of Women Entrepreneurs	140
4.6	Cross table between Age of the respondents and their time spent in business activity	142
4.7	Chi-square output between Age of the respondents and their time spent in business activity	143
4.8	Cross table between the motivational factors to start a business and the type of business	144
4.9	Chi-square output between the Motivational factor to start the business and the type of business	145
4.10	Cross table between size of the firm and the involvement of the firm in social activities	147
4.11	Chi-square output between the size of the firm and their involvement in social activities	147
4.12	Test of Homogeneity of Variances	149
4.13	Perception of the study variables, based on the age of respondents	150
4.14	Post Hoc tests for Emotional Intelligence based on the age of respondents	151
4.15	Post Hoc tests for Work Engagement	152
4.16	Post Hoc tests for Subjective Well-being	152
4.17	Test of Homogeneity of Variances	154
4.18	Perception of the study variables based on the Education of the respondents	154
4.19	Post Hoc tests for Emotional Intelligence based on the Education of respondents	157
4.20	Post Hoc tests for subjective well-being based on the Education of respondents	157

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
4.21	Post Hoc tests for Work engagement based on the Education of respondents	157
4.22	Multiple Comparisons Table – LSD	158
4.23	Test of Homogeneity of Variances	160
4.24	Perception of the study variables based on the Income level of the respondents	160
4.25	Post Hoc Tests for Emotional intelligence based on the Income level of the respondents	161
4.26	Post Hoc Tests for Work Engagement	162
4.27	Post Hoc Tests for Subjective Well-being	162
4.28	Tests of Homogeneity of Variances	163
4.29	Perception of the study variables based on the years of business experience of the respondents	164
4.30	Post Hoc Tests for Emotional intelligence	165
4.31	Post Hoc Tests for Work Engagement	166
4.32	Post Hoc Tests for Subjective Well-being	167
4.33	Tests of Homogeneity of Variances	168
4.34	Perception of the study variables based on the time Scheduled for business activity by the respondents	169
4.35	Post Hoc Test for Emotional Intelligence	170
4.36	Post Hoc Tests for Work Engagement	170
4.37	Post Hoc Tests for Subjective Well-being	171
4.38	Tests of Homogeneity of Variances	172
4.39	Perception of the study variables based on the nature of the business of the respondents	173
4.40	Correlation among Emotional Intelligence, Work Engagement and Subjective Well-being	175
4.41	Regression analysis - Model Summary	177

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
4.42	Linear regression-ANOVA – Impact of Emotional Intelligence on Work Engagement	177
4.43	Regression Co-efficients of the model	178
4.44	Impact of EI components on Work engagement components	179
4.45	Emotional competencies that influence Work engagement	180
4.46	Regression analysis- Model Summary	181
4.47	Linear Regression	182
4.48	Regression Coefficients of the model	182
4.49	Eigen value, Canonical Correlation and Wilk’s Lambda of Work Engagement	185
4.50	Discrimination of Women Entrepreneurs based on indicators of EI	186
4.51	Functions at Group Centroids	187
4.52	Eigen value, Canonical Correlation and Wilk’s Lambda of Subjective well-being	188
4.53	Discrimination of Women Entrepreneurs based on indicators of EI	190
4.54	Functions at Group Centroids	191
4.55	Estimate, Standard Error and Critical ratio of self-awareness	199
4.56	Factor loadings of Emotional Intelligence	204
4.57	Results of Goodness of fit test for EI model	205
4.58	Results of Goodness of fit test for Estimated model	208
4.59	Co-variances between variables	209
4.60	Results of Goodness of fit test for the Estimated model	211
4.61	AMOS output extract: Standardised Regression estimates of the hypothesis tested	212
4.62	Results of the final Estimated model	213
5.1	Results of Goodness of fit test for the final estimated hypothesis model	224
