|          | <b>LIST OF TABLES</b>   |          |
|          | <b>LIST OF FLOWCHARTS</b>   |          |
| <b>I</b> | <b>INTRODUCTION AND DESIGN OF THE STUDY</b>                       |          |
|          | 1.1 Introduction about the study                                  | 1        |
|          | 1.2 Evolution of Talent Management                                | 2        |
|          | 1.3 conceptual foundation of Talent Management                    | 5        |
|          | 1.31 Definitions of Talent Management                             | 6        |
|          | 1.32 Talent Management Strategy                                   | 7        |
|          | 1.4 Talent Management and its Relationship to Employee Engagement | 9        |
|          | 1.5 A System for Talent Management                                | 10       |
|          | 1.5.1 A Systems Approach  | 10       |
|          | 1.5.2 Functions of Talent Management                              | 13       |
|          | 1.6 Introduction about the IT industry                            | 15       |
|          | 1.6.1 Talent Management is Essential for IT industry              | 16       |
|          | 1.6.2 An overview of Talent Management Practices                  | 16       |
|          | 1.6.3 Rise of Talent Management Practices                         | 17       |
|          | 1.6.4 Talent Management Practices in IT sector                    | 18       |
|          | 1.6.5 Profile of the study area                                   | 19       |
|          | 1.7 Statement of the Problem                                      | 21       |
|          | 1.7.1 Objectives of the Study                                     | 22       |
|          | 1.7.2 Scope of the Study  | 22       |
|          | 1.7.3 Significance of the Study                                   | 23       |

| <b>CHAPTER</b> | <b>TITLE</b>   | <b>PAGE NO.</b> |
|----------------|--|-----------------|
|                | 1.8 Limitations of the Study   | 24              |
|                | 1.9 Chapter Scheme   | 24              |
| <b>II</b>      | <b>REVIEW OF LITERATURE</b>  |                 |
|                | 2.1 Part: I Operational Definitions  | 25              |
|                | 2.2 Part II Reviews of Related Literature                                    | 29              |
|                | 2.3 Summary  | 58              |
| <b>III</b>     | <b>RESEARCH METHODOLOGY</b>  |                 |
|                | 3.1 Area of the Study  | 60              |
|                | 3.2 Hypotheses of the Study  | 60              |
|                | 3.3 Data Collection Method   | 61              |
|                | 3.4 Sample Selection   | 62              |
|                | 3.5 Survey Design  | 63              |
|                | 3.5.1 Discussions and formal interview                                       | 63              |
|                | 3.5.2 Pre-test   | 63              |
|                | 3.5.3 Approach to assess the extent of effect of Talent Management Practices | 64              |
|                | 3.6 Period of the Study  | 64              |
|                | 3.7 Administration of Questionnaire to IT sector Employees                   | 64              |
|                | 3.7.1 Scoring Method   | 65              |
|                | 3.7.2 Variables used for the Study   | 65              |
|                | 3.8 Administration of Questionnaire to IT sector HR managers                 | 66              |
|                | 3.8.1 Scoring Method   | 66              |
|                | 3.9 The Tools used for Data Analysis   | 66              |

| <b>CHAPTER</b> | <b>TITLE</b>  | <b>PAGE NO.</b> |
|----------------|---|-----------------|
| <b>IV</b>      | <b>DATA ANALYSIS, INTERPRETATION AND DISCUSSION</b> |                 |
|                | 4.1 Introduction                                    | 68              |
|                | 4.2 Part –I Data Analysis for Employees             | 69              |
|                | 4.3 Part -II Data Analysis for HR Manager           | 211             |
|                | <b>PART-II DISCUSSION</b>                           |                 |
|                | 4.4 Discussion                                      | 229             |
| <b>V</b>       | <b>FINDINGS, SUGGESTIONS AND CONCLUSION</b>         |                 |
|                | 5.1 Introduction                                    | 236             |
|                | 5.1 Findings  | 236             |
|                | 5.2 Suggestions                                     | 242             |
|                | 5.3 Conclusion                                      | 245             |
|                | 5.4 Scope of Future study                           | 246             |
|                | <b>APPENDICES</b>                                   |                 |
|                | <b>A. Questionnaire for Employee</b>                |                 |
|                | <b>B. Questionnaire for HR Manager</b>              |                 |
|                | <b>C. Bibliography</b>                              |                 |

## LIST OF TABLES

| <b>Table No.</b> | <b>Particulars</b>  | <b>Page No.</b> |
|------------------|---|-----------------|
| 4.1              | List of dependent variables   | 69              |
| 4.2              | Designation and level of satisfaction towards the employee benefits and policies (Two-way table)  | 70              |
| 4.3              | Designation and level of satisfaction with the employee benefits and policies (Chi-square test)   | 71              |
| 4.4              | Department and level of satisfaction towards the employee benefits and policies (Two-way table)   | 72              |
| 4.5              | Department and level of satisfaction with the employee benefits and policies (Chi-square test)    | 73              |
| 4.6              | Employee age and level of satisfaction towards the employee benefits and policies (Two-way table) | 74              |
| 4.7              | Employee age and level of satisfaction with the employee benefits and policies (Chi-square test)  | 75              |
| 4.8              | Sex and level of satisfaction towards the employee benefits and policies (Two-way table)          | 76              |
| 4.9              | Sex and level of satisfaction with the employee benefits and policies (Chi-square test)           | 76              |
| 4.10             | Experience and level of satisfaction towards the employee benefits and policies (Two-way table)   | 77              |
| 4.11             | Experience and level of satisfaction with the employee benefits and policies (Chi-square test)    | 78              |
| 4.12             | Designation and level of commitment to values (Two-way table)                                     | 79              |
| 4.13             | Designation and level of commitment to values (Chi-square test)                                   | 80              |

| <b>Table No.</b> | <b>Particulars</b>   | <b>Page No.</b> |
|------------------|--|-----------------|
| 4.14             | Department and level of commitment to values (Two-way table)     | 81              |
| 4.15             | Department and level of commitment to values (Chi-square test)   | 82              |
| 4.16             | Employee Age and level of commitment to values (Two-way table)   | 82              |
| 4.17             | Employee age and level of commitment to values (Chi-square test) | 83              |
| 4.18             | Sex and level of commitment to values (Two-way table)            | 84              |
| 4.19             | Sex and level of commitment to values (Chi-square test)          | 85              |
| 4.20             | Experience and level of commitment to values (Two-way table)     | 86              |
| 4.21             | Experience and level of commitment to values (Chi-square test)   | 87              |
| 4.22             | Designation and opinion towards customer focus (Two-way table)   | 88              |
| 4.23             | Designation and opinion towards customer focus (Chi-square test) | 89              |
| 4.24             | Department and opinion towards customer focus (Two-way table)    | 89              |
| 4.25             | Department and opinion towards customer focus (Chi-square test)  | 90              |
| 4.26             | Age and opinion towards customer focus (Two-way table)           | 91              |
| 4.27             | Employee age and level of commitment to values (Chi-square test) | 92              |
| 4.28             | Sex and opinion towards customer focus (Two-way table)           | 93              |
| 4.29             | Sex and opinion towards customer focus (Chi-square test)         | 93              |

| <b>Table No.</b> | <b>Particulars</b>  | <b>Page No.</b> |
|------------------|---|-----------------|
| 4.30             | Experience and opinion towards customer focus (Two-way table)                         | 94              |
| 4.31             | Experience and opinion towards customer focus (Chi-square test)                       | 95              |
| 4.32             | Designation and level of satisfaction with the salary and benefits (Two-way table)    | 96              |
| 4.33             | Designation and level of satisfaction with the salary and benefits (Chi-square test)  | 97              |
| 4.34             | Department and level of satisfaction with the salary and benefits (Two-way table)     | 98              |
| 4.35             | Department and level of satisfaction with the salary and benefits (Chi-square test)   | 99              |
| 4.36             | Employee age and level of satisfaction with the salary and benefits (Two-way table)   | 100             |
| 4.37             | Employee age and level of satisfaction with the salary and benefits (Chi-square test) | 101             |
| 4.38             | Sex and level of satisfaction with the salary and benefits (Two-way table)            | 102             |
| 4.39             | Sex and level of satisfaction with the salary and benefits (Chi-square test)          | 102             |
| 4.40             | Experience and level of satisfaction with the salary and benefits (Two-way table)     | 103             |
| 4.41             | Experience and level of satisfaction with the salary and benefits (Chi-square test)   | 104             |
| 4.42             | Designation and opinion towards level of development plan (Two-way table)             | 105             |
| 4.43             | Designation and opinion towards level of development plan (Chi-square test)           | 106             |

| <b>Table No.</b> | <b>Particulars</b>   | <b>Page No.</b> |
|------------------|--|-----------------|
| 4.44             | Department and opinion towards level of development plan (Two-way table)     | 107             |
| 4.45             | Department and opinion towards level of development plan (Chi-square test)   | 108             |
| 4.46             | Employee age and opinion towards level of development plan (Two-way table)   | 109             |
| 4.47             | Employee age and opinion towards level of development plan (Chi-square test) | 110             |
| 4.48             | Sex and opinion towards level of development plan (Two-way table)            | 110             |
| 4.49             | Sex and opinion towards level of development plan (Chi-square test)          | 111             |
| 4.50             | Experience and opinion towards level of development plan (Two-way table)     | 112             |
| 4.51             | Experience and opinion towards level of development plan (Chi-square test)   | 113             |
| 4.52             | Designation and opinion towards Innovation (Two-way table)                   | 114             |
| 4.53             | Designation and opinion towards Innovation (Chi-square test)                 | 115             |
| 4.54             | Department and opinion towards Innovation (Two-way table)                    | 115             |
| 4.55             | Department and opinion towards Innovation (Chi-square test)                  | 116             |
| 4.56             | Employee Age and opinion towards Innovation (Two-way table)                  | 117             |
| 4.57             | Employee age and opinion towards Innovation (Chi-square test)                | 118             |
| 4.58             | Sex and opinion towards Innovation (Two-way table)                           | 119             |
| 4.59             | Sex and opinion towards Innovation (Chi-square test)                         | 119             |

| <b>Table No.</b> | <b>Particulars</b>   | <b>Page No.</b> |
|------------------|--|-----------------|
| 4.60             | Experience and opinion towards Innovation (Two-way table)        | 120             |
| 4.61             | Experience and opinion towards Innovation (Chi-square test)      | 121             |
| 4.62             | Designation and level of managing performance (Two-way table)    | 122             |
| 4.63             | Designation and level of managing performance (Chi-square test)  | 123             |
| 4.64             | Department and level of managing performance (Two-way table)     | 124             |
| 4.65             | Department and level of managing performance (Chi-square test)   | 125             |
| 4.66             | Employee age and level of managing performance (Two-way table)   | 126             |
| 4.67             | Employee age and level of managing performance (Chi-square test) | 127             |
| 4.68             | Sex and level of managing performance (Two-way table)            | 127             |
| 4.69             | Sex and level of managing performance (Chi-square test)          | 128             |
| 4.70             | Experience and level of managing performance (Two-way table)     | 129             |
| 4.71             | Experience and level of managing performance (Chi-square test)   | 130             |
| 4.72             | Designation and level of quality commitment (Two-way table)      | 131             |
| 4.73             | Designation and level of quality commitment (Chi-square test)    | 132             |
| 4.74             | Department and level of quality commitment (Two-way table)       | 132             |
| 4.75             | Department and level of quality commitment (Chi-square test)     | 133             |
