CONTENTS

Chapter No.	Title	Page No.
	Objective and Scope	1
	References	7
1	Synthesis, Characterization and DFT studies of Schiff base ligands	12
	1.1 Review of Literature	12
	1.2 Results and Discussion	20
	1.2.1 Synthesis of 4-methyl-2-(salicylidenehydrazino) quinoline	20
	1.2.2 Synthesis of 4-methyl-2-(salicylideneethiosemicarbazino) quinoline	29
	1.3 Experimental	47
	1.4 References	54
2	Iridium (III) complexes – Synthesis, Characterization and computational studies	56
	2.1 Review of literature	56
	2.2 Results and Discussion	69
	2.3 Experimental	83
	2.4 References	86
3	Synthesis and spectral investigation of Platinum (IV) complexes	89
	3.1 Review of literature	89
	3.2 Results and Discussion	97
	3.3 Experimental	110
	3.4 References	113
4	Synthesis & Characterisation of Osmium (III) Complexes	115
	4.1 Review of Literature	115
	4.2 Results and Discussion	124

Chapter No.	Title	Page No.
	4.3 Experimental	134
	4.4 References	137
5	Synthesis and characterization of Co(II) complexes containing quinoline Schiff base ligands	140
	5.1 Review of literature	140
	5.2 Results and Discussion	149
	5.3 Experimental	162
	5.4 References	165
6	A Comparative study of Pharmacological and Photophysical activity of complexes	167
	6.1 References	188
	Summary	189
	Publications
