### CERTIFICATE

This is to certify that the thesis, entitled "IDENTIFICATION OF RARE GENETIC MUSCULAR DYSTROPHY FROM GENE SEQUENCES AND MUTATION BASED FEATURES THROUGH SHALLOW AND DEEP LEARNING" submitted to Bharathiar University, in partial fulfillment of the requirements for the award of the Degree of Doctor of Philosophy in Computer Science is a record of original research work done by Mrs. Sathyavikasini. K (Register No. 2013R405) during the period of September 2013 to August 2017 of her research in the Department of Computer Science at PSGR Krishnammal College for Women, Coimbatore under my supervision and guidance and the thesis has not formed the basis for the award of any Degree/Diploma/ Associateship / Fellowship or other similar title to any candidate of any University.

### DECLARATION

I, Sathyavikasini. K (Register No. 2013R405) hereby declare that the thesis, entitled "IDENTIFICATION OF RARE GENETIC MUSCULAR DYSTROPHY FROM GENE SEQUENCES AND MUTATION BASED FEATURES THROUGH SHALLOW AND DEEP LEARNING", submitted to Bharathiar University, in partial fulfillment of the requirements for the award of the Degree of Doctor of Philosophy in Computer Science, is a record of original and independent research done by me during the period of September 2013 to August 2017 under the Supervision and Guidance of Dr. (Mrs.) M. S. Vijaya M.Sc., M.Phil., Ph.D, Associate Professor and Head, Department of Computer Science at PSGR Krishnammal College for Women, Coimbatore and it has not been formed the basis for the award of any Degree / Diploma / Associateship / Fellowship or other similar title to any candidate of any University.

# GENINUNESS OF PUBLICATION

# **GENINUNENESS OF PUBLICATION**

This is to certify that the PhD candidate Mrs. Sathyavikasini. K (Register No. 2013R405) working under my supervision has published research articles in the following refereed journals.

- "Muscular Dystrophy Disease Classification Using Relative Synonymous Codon Usage", International Journal of Machine Learning and Computing vol.6, no. 2, ISSN- 2010-3700, pp. 139-144, 2016.
- "Identification of Rare Genetic Disorder from Single Nucleotide Variants Using Supervised Learning Technique", International Journal of Control Theory and Applications, Vol.9, no.34, pp. 801-810, 2016 (Scopus indexed).
- "Shallow Learning model for diagnosing neuromuscular disorder from splicing variants", World Journal of Engineering, Vol. 14, no. 4, pp.329-336, 2017 (Scopus Indexed, ISI indexed).

The contents of the publication incorporates part of the results in his/her thesis.

#### ACKNOWLEGEMENT

I'm blessed and I thank God for every day for everything that happens for me.

For many doctoral students, dissertation process is a long and solitary path to pursue. For my part, it has indeed been challenging but never lonely, thanks to the people who have supported me all along. This is a great milestone in my career and I would like to thank everyone who has helped me to achieve this.

I sincerely express my deep sense of gratitude to **Smt.R.Nandhini**, Chair person, PSGR Krishnammal College for Women for providing the opportunity to pursue the research.

I am indebted to **Dr. (Mrs). N.Yeshodha Devi M.Com., Ph.D,** Secretary, PSGR Krishnammal College for Women for her warm support and inspiration.

I convey my sincere gratitude to **Dr. (Mrs). S. Nirmala MBA., M.Phil., Ph.D,** Principal, PSGR Krishnammal College for Women for all the amenities provided for the conduct of study.

I would like to record here my deep indebtedness and heartfelt gratitude to my research supervisor and guide **Dr.** (**Mrs**). **M.S.Vijaya M.Sc., M.Phil., Ph.D,** Associate Professor, Computer Science department, PSGR Krishnammal College for Women for her continuous support, encouragement and motivation, during my research work and for standing by me throughout the period of study without which I would not have completed the research on time. She has always had the ability to see the big depiction and to keep me focused towards the goal. She bestowed endless support and encouragement, which are awfully essential for any doctoral student. No matter how busy she had been, she would always find time to offer counsel for my doubts. I do not think that I could have had a better supervisor than her for my thesis.

I would like to extend my thanks to all the faculty members, lab assistants, librarians and

supporting staff of the Department of Computer Science, PSGR Krishnammal College for Women for their help and encouragement during my course of research.

I am very much thankful to my parents **Mr. K. Kalimuthu** and **Mrs. K. Saraswathy** who encouraged and motivated me towards success through their sound faith and silent prayers. Without them this research work would never come into existence.

I owe my warmest thanks to my father-in-law **Mr. N. Ramalingam** and my mother-in-law **Mrs. R. Saraswathy** for their love and untiring support throughout my life.

This thesis would not have seen the light of day but for the utmost care, persistent motivation and fillip provided in ample measure by my husband, **Mr. R. Muthumanickam** for his positive attitude, which has taken me to great heights. I thank my daughter **Ms. M. Nikarika** who is the best gift I could ever have, for her smile encourages me to efficiently overcome the difficulties encountered in my research. Her love, support and patience has given me a lot of strength and willpower, throughout this arduous journey of research.

I want to thank my family members for their immense love and thoughtful encouragement at home. There are many other good friends and well-wishers who have rendered me help in great or small measure in the successful completion of this project. I am great full to all of them.

If by mistake I have failed to thank anyone, who has slipped from my memory, I offer humble apology and render heartfelt thanks to everyone.
