

List of Tables

LIST OF TABLES

Table No.	Title	Page No.
4.1	Personal profile of the respondents	45
4.2	Job related profile of the respondents	47
4.3	Competencies ranked by Faculty	51
4.4	Competencies ranked by HOD	52
4.5	Knowledge Scores by Personal Socio-Economic Profile Parameters	53
4.6	Knowledge Scores by Job Related Profile Parameters	56
4.7	Skill Scores by Personal Socio-Economic Profile Parameters	59
4.8	Skill Scores by Job Related Profile Parameters	62
4.9	Motive Scores by Personal Socio-Economic Profile Parameters	66
4.10	Motive Scores by Job Related Profile Parameters	69
4.11	Traits Scores by Personal Socio-Economic Profile Parameters	72
4.12	Traits Scores by Personal Job Related Profile Parameters	75
4.13	Self-Concept Scores by Personal Socio-Economic Profile Parameters	79
4.14	Self-Concept Scores by Personal Job Related Profile Parameters	82
4.15	Table on Correlation between the competencies	85
5.1	Comparison between Faculty (Self) and Peers for the five competencies with Gender	88
5.2	Repeated Measures ANOVA for the five competency score by Gender and faculty (Self) respondents with Peers respondents (Includes interaction effect)	90
5.3	Comparison between Faculty (Self) and Peers for the five competencies with medium of instruction in school	92
5.4	Repeated Measures ANOVA for the five competency score by Medium of instruction in school and faculty (Self) respondents with Peers respondents (Includes interaction effect)	94

Table No.	Title	Page No.
5.5	Comparison between Faculty (Self) and Peers for the five competencies with Educational Qualification	96
5.6	Repeated Measures ANOVA for the five competency score by Educational Qualification and faculty (Self) respondents with Peers respondents (Includes interaction effect)	98
5.7	Comparison between Faculty (Self) and Peers for the five competencies with Additional Qualification	100
5.8	Repeated Measures ANOVA for the five competency score by Additional Qualification and faculty (Self) respondents with Peers respondents (Includes interaction effect)	102
5.9	Comparison between Faculty (Self) and Peers for the five competencies with Category of employment	104
5.10	Repeated Measures ANOVA for the five competency score by Category of employment and faculty (Self) respondents with Peers respondents (Includes interaction effect)	106
5.11	Comparison between Faculty (Self) and Peers for the five competencies with Designation	108
5.12	Repeated Measures ANOVA for the five competency score by Designation and faculty (Self) respondents with Peers respondents (Includes interaction effect)	109
5.13	Comparison between Faculty (Self) and Peers for the five competencies with Teaching Experience	111
5.14	Repeated Measures ANOVA for the five competency score by Teaching Experience and faculty (Self) respondents with Peers respondents (Includes interaction effect)	113
5.15	Comparison between faculty (Self) respondents and Peer respondents for the five Competencies with Industrial Experience	115
5.16	Repeated Measures ANOVA for different Competencies by Industrial experience and faculty (Self) respondents with Peers respondents (Includes interaction effect)	117
5.17	Comparison between faculty (Self) respondents and Peer respondents for the five Competencies with number of registered research scholars	119

Table No.	Title	Page No.
5.18	Repeated Measures ANOVA for different Competencies by number of registered research scholars and faculty (Self) respondents with Peer respondents (Includes interaction effect)	121
5.19	Comparison between Faculty (Self) and HOD for the five competency with Gender	124
5.20	Repeated Measures ANOVA for different Competencies by Gender and faculty (self) respondents with HOD respondents (Includes interaction effect)	125
5.21	Comparison between Faculty (Self) and HOD for the five competency with medium of instruction in school	127
5.22	Repeated Measures ANOVA for the five competency score by Medium of instruction in school and faculty (Self) respondents with HOD respondents (Includes interaction effect)	129
5.23	Comparison between Faculty (Self) and HOD for the five Competencies with Educational Qualification	131
5.24	Repeated Measures ANOVA for different Competencies by Educational Qualification and faculty (Self) respondents with HOD respondents (Includes interaction effect)	133
5.25	Comparison between Faculty (Self) and HOD for the five competency with Additional Qualification	135
5.26	Repeated Measures ANOVA for different Competencies by Additional Qualification and Faculty (Self) respondents with HOD respondents (Includes interaction effect)	137
5.27	Comparison between Faculty (Self) and HOD for the five competency with Category of employment	139
5.28	Repeated Measures ANOVA for different Competencies by Category of employment and faculty (Self) respondents with HOD respondents (Includes interaction effect)	140
5.29	Comparison between Faculty (Self) and HOD for the five competency with Designation	142
5.30	Repeated Measures ANOVA for different Competencies by Designation and faculty (Self) respondents with HOD respondents (Includes interaction effect)	144

Table No.	Title	Page No.
5.31	Comparison between Faculty (Self) and HOD for the five competency with Teaching Experience	146
5.32	Repeated Measures ANOVA for different Competencies by Teaching experience and faculty (Self) respondents with HOD respondents (Includes interaction effect)	148
5.33	Comparison between faculty (Self) respondents and HOD respondents for the five Competencies with Industrial Experience	150
5.34	Repeated Measures ANOVA for different Competencies by Industrial experience and faculty (Self) respondents with HOD respondents (Includes interaction effect)	153
5.35	Comparison between faculty (Self) respondents and HOD respondents for the five Competencies with number of registered research scholars	155
5.36	Repeated Measures ANOVA for different Competencies by number of registered research scholars and faculty (Self) respondents with HOD respondents (Includes interaction effect)	157
5.37	Comparison between faculty (Self) respondents and student respondents with gender for all five competencies	159
5.38	Repeated Measures ANOVA for different Competencies by Gender and faculty (Self) respondents with Student respondents (Includes interaction effect)	160
5.39	Comparison between Faculty (Self) and Students for the five competencies with medium of instruction in school	162
5.40	Repeated Measures ANOVA for different Competencies by Medium of Instruction in School and faculty (Self) with Student respondents (Includes interaction effect)	164
5.41	Comparison between Faculty (Self) and Students for the five competencies with Educational Qualification	167
5.42	Repeated Measures ANOVA for different Competencies by Highest Educational Qualification and faculty (Self) respondents with Student respondents (Includes interaction effect)	169
5.43	Comparison between Faculty (Self) and Students for the five competencies with Additional Qualification	171

Table No.	Title	Page No.
5.44	Repeated Measures ANOVA for different Competencies by Additional Qualification and faculty (Self) respondents with students respondents (Includes interaction effect)	173
5.45	Comparison between Faculty (Self) and students for the five competencies with Category of employment	175
5.46	Repeated Measures ANOVA for different Competencies by the Category of employment and faculty (Self) respondents with student respondents (Includes interaction effect)	177
5.47	Comparison between Faculty (Self) and Students for the five competencies with Designation	179
5.48	Repeated Measures ANOVA for different Competencies by Designation and faculty (Self) respondents with student respondent (Includes interaction effect)	181
5.49	Comparison between Faculty (Self) and Students for the five competencies with Teaching Experience	183
5.50	Repeated Measures ANOVA for different Competencies by Teaching experience and faculty (Self) respondents with student respondents (Includes interaction effect)	185
5.51	Comparison between faculty (Self) respondents and Students respondents for the five Competencies with Industrial Experience	187
5.52	Repeated Measures ANOVA for different Competencies by Industrial experience and faculty (Self) respondents with student respondents (Includes interaction effect)	189
5.53	Comparison between faculty (Self) respondents and Students respondents for the five Competencies with number of registered research scholars	191
5.54	Repeated Measures ANOVA for different Competencies by number of registered research scholars and faculty (Self) respondents with student respondents (Includes interaction effect)	193
